3rd Position

MY HOBBY

Hobbies are the things that we do in our leisure time. In this time we can do our favorite things such as playing cricket, reading books, playing indoor games etc. we enjoy our leisure time by doing these things. My hobby is to play cricket. It is very interesting game. I play cricket in any free time with any friend. My friends have also many interesting hobbies such as reading, playing indoor games, etc. Some people say that we have no hobbies. I think they tell a lie. Because every person in the world have much free time. Some people watch T.V, Play football, Cricket, Hockey etc they are hobbies. Some people in the world have no free time; they spend their time while sitting only. I also like to read books. Reading books is a good habit. We get a lot of information while reading these books. I go with my father to a shop and buy the books such as about Prophet (S.A.W), Allah's names and Wazief. Books about great ancestors, like Quaid e Azam, Allama Iqbal, Amam Abu Hanifa etc. I enjoy reading these books. These books are very interesting .From these books we got information that who we write an essay, letter, reports, paragraphs, messages etc. I read these books and enjoy a lot. At the end I want to say that every person on the earth have hobbies or things that they do is in their leisure time.
